INDEX

PAGE

Abscess.—Peritonsillar, chronic, treatment of 142
Accessory Sinuses—
  Physiologic and pathologic relation to eye 18
  Serious eye conditions resulting from disease 18
  In children 29
  Surgical anatomy, treatment, of diseases 29
Adenoids.—Factor in amblyopia 369
Addresses—
  President's—John W. Murphy 1
  Vice-President's—John McReynolds 193
  Corneoscleral trephining (Oration) 204
Amblyopia.—Adenoids a factor in 369
Anatomy—
  Accessory sinuses in children (Oppenheimer) 29
  Labyrinth, for operation 61
  Sympathetic nerve in eye, ear, nose and throat (Haskins) 3
Anomaly—
  Of retinal pigment 333
  Retraction movements of the eye (Green) 358
Atropin treatment of acute rhinitis 103
Bronchus.—Foreign bodies, extraction of 165
Bacteria.—In tonsils 127
Brain Infection.—Sinus disease, from 42
Bronchus.—Removal of wire nail from 165
Chair.—Operating 388
Coloboma of lens 268
Corneoscleral trephining 204
Cerebellar abscess due to labyrith infection 53
Cyst.—Epiglottis 133
Conjunctivitis.—Parinaud's report of cases 351
Dysmenorrhea.—Intranasal treatment of, case reports 112
Esophagoscope, new 187
Esophagus.—Removal of foreign bodies, technic 180
Electromagnet.—Extraction of metallic bodies from trachea and bronchus 165
Ear.—External, epithelioma of 152
Endonasal route of attack of hypophyseal tumor 89
  Conservative surgery in endonasal conditions 79
Enucleation.—Substitute for 273
Epiglottis.—Cyst 133
Epithelioma.—External ear 152
Eserin.—In diseases of the eye 236
Eye-Strain.—Faulty illumination causing 309
Eye—
  Pilocarpin in diseases of 236
  Serious conditions resulting from diseases of intranasal and accessory sinuses 18
  Enucleation substitute 273
  Oxycephalus symptoms in 375
  Eserin in diseases of the 236
  Psychic disturbances involving the 280

PAGE
Fibromyxoma of nasopharynx, cases of 160
Foreign Bodies—
In trachea and bronchus 165
Esophagus 180
Technic in removal of 180
Hypophyseal Tumor.—Endonasal route of attack 89
Illumination.—Faulty, causing eye-strain 309
Implantation of glass balls after enucleation 273
Immunity.—Spontaneously acquired, inoculation therapy in scientific aspects 339
Instruments—
Shield for eye knives 384
Trephine for glaucoma 389
Trephine for antrum surgery 385
Chisel, reverse 385
Nasal knife and speculum 385
Adenotome modified 386
Vocal cords, separating of, esophagus, opening mouth of 387
Operating chair 388
Labyrinth, Symposium—
Differential diagnosis 56
Pathology of labyrinthitis 53
Operative treatment 61
Larynx.—Tumor of 383
Lens.—Bilateral coloboma 268
Lung.—Removal of wire nail from 176
Macula.—Edema of 328
Magnet.—Use of, for foreign bodies in trachea, bronchus and esophagus 165
Mastoid.—Radical operation, when imperative 71
Mastoiditis.—Acute, indications for operation 66
Meningitis due to labyrinth disease 53
Movements.—Retraction, of the eyes 358
Nasopharynx.—Extensive fibroma 160
Nose.—Physiologic and pathologic relations of 23
Nystagmus.—In labyrinthitis, lantern-slide demonstration 65
Operations for—
Mastoiditis, acute 66
Hypophyseal tumor 89
Glaucoma 220
Enucleation, substitute 273
Trephining for glaucoma 204
Labyrinthitis 61
Mastoid, radical 71
Ozone.—In treatment of ear, nose and throat 107
Oxycephalus.—Ocular symptoms in 375
Parinaud's Conjunctivitis—
Pathology 352
Etiology 351
Pelvis.—Reflexes from, affecting eye, ear, nose and throat 196
Peritonsillar Abscess.—Treatment, differential diagnosis, symptoms of 142
Pigment, retinal anomaly, clinical significance 333
Pilocarpin.—In diseases of the eye 236
Psychic disturbances involving the eye 280
Reflexes—
From elongated uvula 136
Pelvic 196

PAGE

Retina—
Pigment, anomalies, significance 333
Edema of 328
Retraction.—Movements of the eye, acquired, congenital 358
Rhinitis, Acute.—Atropin in treatment of 103
Sinus Disease.—Brain infection from 42
Special Practice.—Time to prepare 295
Sympathetic Nerve.—Relationship to head 3
Tension.—Intra-ocular, inquiry 224
Tonsil—
Bacterial contents 127
Instrument for enucleation of .....
Trachea.—Foreign bodies extracted with electromagnet 165
Trephine—
Gradle's 389
Motor driven (Reber) 257
Trephining—
Corneoscleral 389
Glaucoma for, with report of cases 238
Report of cases (Reber-Remmen) 220–244
Uvula.—Elongated, reflexes from 136
Violet Ray.—In treatment of nose, throat and ear 107
Wire Nail.—Removal of, from stem of bronchus 176
